Hi,

We were planning on having only 1 SW and 1 GW slide. I removed the slides from the previous versions and only kept the ones Steve ultimately revised.

Amy

Slide 14 was different in the sharepoint version so I changed it to the version we reviewed, but now I do not remember if we agree on deleting that. ☺The slides in the sharepoint version runs from 9 to 13 and you can find the link below. Let me know if something else needs to be changed.

Thanks

Are we good to go with the version I sent around. We need to put them into the SharePoint site today given all the meetings being scheduled?

Subject: FW: Aldicarb - Updates on briefings - link to slides

Hi,

As we prepare for the aldicarb meeting this week, considering the feedback from folks, I took a stab at the slides as well. I placed my suggested slides after the last revision so you could see what I changed. See slides 15 and 17. We will need to have these slides ready for the team meeting tomorrow morning as we can go over the slide set as a group

Let me know if you have questions or concerns on the revised slides.

Thanks,
Amy

Hi everyone,

Two major comments on the new slides.

First, **Ex. 5 Deliberative Process (DP)**
Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) The information on slides 14, 15, and 16 isn't really useful information.

I know you're tired of hearing it, but after seeing the notes floating around today such as the one from our senior EPA advisor, I would strongly suggest that we consider **Ex. 5 Deliberative Process (DP)** **Ex. 5 Attorney Client (AC)**

Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Sorry for the continued pontification.

Mike

Subject: Aldicarb - Updates on briefings - link to slides

Hi Team,

The briefing for the DDs is scheduled for Wednesday 11/18/20. And there is a push to schedule a meeting/briefing with Alex D. before Thanksgiving.

Based on the last team meetings and discussions with the registrant, I have added some new slides to the deck in an attempt to capture and summarize our results from what was proposed, the refinements, as well as some of the policy

shifts that seem to have been used for other chemicals (i.e., methomyl). Please take a look to make sure that I haven't taken anything out of context with the numbers and inputs used to reach those results.

Many of the new slides are still rough, but please feel free to add comments and suggestions if you think there may be a better way to present a slide or the story. A link to the slides is provided below for your convenience. Thank you!

Debra
